

Introducing IPFone with Cisco Webex

Your Business Communications are About to Get a Lot Simpler.

IPFone is proud to announce its new partnership with Cisco, the global leading provider in video conferencing and messaging solutions, to bring you a fresh experience that seamlessly integrates IPFone calling features with Cisco Webex capabilities.

IPFone Cisco Webex is a fresh, all-in-one collaboration solution that's delivered via the Webex app. Customers can choose from flexible packages that range from basic softphone to premium meetings, allowing for up to 1000 participants in a single meeting. Best of all, you can continue to rely on IPFone, not only your calling solution but your entire collaboration experience.

EXCITING NEW FEATURES

- Direct and team chats
- One-click
- Screensharing
- Easy-to-join meetings
- Emojis and GIPHYs
- Simple file sharing

Customers can enjoy access to hundreds of pre-built integrations available for third-party applications such as Google, Salesforce, Microsoft, and more.
